

NOTICE OF VIOLATION

It is a violation to place or plant any object or materials within the town-owned right-of-way. This area must be kept clear in the event that the Highway Dept. workers or the utility companies such as (Suffolk County Water Authority, PSE&G, National Grid, Cablevision, or Independent Contractors) need to work on underground/or overhead utilities. The East Hampton Town Highway Dept. is not required to repair any damage done to private property that has been placed within the town-owned right -of-way such as planting, paving stones, driveway aprons, sprinklers, etc. For public safety and for children walking to school as well as other pedestrians and bicycles this right of way needs to be free of obstruction. This includes fencing, rocks and any type of hard structure. Please do not place leaves or any other materials on storm drains. If possible keep these areas clear of debris. If you are unable to do so please notify the Highway office. These procedures will help to prevent flooding issues.

Please take note that we do not have workers on every town road each day. If there is a road issue please feel free to phone the Highway Office to voice your concerns.
